How Can We Help?

We know that times are challenging right now for providers, teachers, families, and pretty much everyone in the world.

Things are changing everyday and it's difficult to keep up with the most current and accurate information. WWW.CDC.GOV is the premier resource for up-to-date information. For Maryland specific information, check out www.governor.marland.gov/coronavirus.

Project Act is busy working on ways to make your life a little easier:

- Need resources? We have created the Project ACT Covid-19 Resource Guide available for Baltimore, Harford, and Cecil Counties.
- Need assistance? The Project ACT staff is here (remotely) to offer any support that we can provide.
- Need training hours? Since we are unable to host in-person trainings, we are offering live webinars for you to get COK hours. Check out the calendar at www.anprojectact.org.

**And remember: Breathe in and breathe out.
We are all doing the best we can and that's ok!**

Self Care Tips:

“Rest and self care are so important. You cannot pour from an empty vessel.”

(Eleanor Brown)

This is much easier said than done! Start small. Take a 10 minute walk outside. Do 4x4 breathing multiple times throughout the day (Breathe in for 4, hold for 4, breathe out for 4, hold for 4). Eat a piece of fruit. Do neck circles and shoulder shrugs.

Every little bit counts!

Tips for Helping Children Deal with the Crisis:

1. Try to keep a consistent routine (as best as you can). Times don't matter, but try to have the activities in the same order. Knowing what comes next is reassuring for children (and grown-ups).
2. Validate feelings: “I know this is scary, but we can do lots of things to help (washing hands, staying home, making hearts for the windows for people to see, making cards for nursing homes, etc.)”
3. Keep COVID-19 conversations with children to a minimum; avoid watching the news with them. Too much information can be overwhelming for young children.
4. Integrate art into your daily activities. Allowing children to express their creativity can help alleviate stress. Try sidewalk chalk, painting rocks, or making and playing with play dough. Messy activity? Take it outside for easier clean up.

Now more than ever, we are getting bombarded with reminders about the importance of washing your hands correctly. Here are some tips to help children with this not-always-fun habit:

- ◆ Remind them that washing hands helps keep everyone safe.
- ◆ Post visuals at each sink as a reminder.
- ◆ 20 seconds is the golden rule for handwashing. Teach different songs to sing as they wash their hands (Happy Birthday two times, the ABCs, etc.). Or, set a timer and let children sing whatever song they would like.
- ◆ Kids need to see how to properly wash hands; hang pictures, watch a video, or have a dance party. Play some fun music and model/pretend to wash hands.
- ◆ Have discussions about when you should wash your hands (when entering the home/center, after playing outside, after touching pets, after using the restroom, before eating)

REGISTRATION POLICIES

Training Sessions

Due to current state guidelines, trainings are now being offered in an online training format. Each participant will need INDIVIDUAL access to a computer, smartphone, or tablet. Specific webinar access details will be sent prior to the training. Please monitor your email for updates. The webinar platform that we use is ZOOM. There will be a knowledge measure and training evaluation provided via Survey Monkey. The knowledge measure and training evaluation are required components of the webinar.

Training sessions begin promptly; plan to log in 10 minutes EARLY for the training. Sign-in will be allowed until 15 minutes after the start of the training; after 15 minutes you will not be permitted to join the training and this will be considered a “missed class”. Refunds or credits are **not** issued for a missed class.

A certificate will only be given for attending the entire training session/series (ex: if you leave early you will not receive a certificate). If you miss any part of a multi-part course, you will not receive a certificate. All training sessions end on time.

Training Format

Training sessions are recognized and approved by the Maryland State Department of Education – Office of Child Care (OCC). In accordance with COMAR, an assessment is given at all training sessions as required. This may be in the form of an activity, group project, homework or written test. A passing score on the assessment is required for successful completion of course and receipt of a Core of Knowledge certificate.

Certificates are sent by email within 10 business days of the training session unless otherwise noted by the trainer. **Certificates are not awarded the same day as the training.**

Participants Only

Training sessions are designed for REGISTERED ADULTS only. Please make other arrangements for your children, so they will be safe and happy while you attend the training.

Refunds/Credits

Training sessions are non-refundable. In the event a participant wishes to cancel registration, a credit for future training may be issued. Cancellations must be received 48 hours before the scheduled start time to be eligible for a credit. The credit must be used within 6 months. Missed training sessions will not be refunded or credited (including late arrivals or leaving early). Beginning July 1 2018: There will be a processing fee of \$10 for all duplicate certificate requests.

Class Cancellations

Training sessions may be cancelled due to low enrollment or other administrative reasons. You will be notified by email if a class is cancelled due to these circumstances.

To find out if training is cancelled, call 410-828-7700.

In the event Abilities Network cancels a training session, we will reschedule or substitute the training. If the training cannot be rescheduled, a substitution cannot be arranged, or if you are unable to attend the rescheduled training, you will receive a full refund.
